

SIMPLICITY SHELVING SYSTEM

THE ONLY SHELVING SYSTEM 100% COMPATIBLE WITH
THE LOGIKA 3000 PARTITIONING SYSTEM

- ▶ Unique design eliminates screws and wall damage.
- ▶ Fast, simple assembly requiring no special skills or tools.
- ▶ Shelves can be located anywhere along a partition run (even over glazing if required !)
- ▶ Support rails are fully relocatable.
- ▶ Superior welded 1mm solid steel shelves maximise strength and capacity (up to 100Kg per shelf).
- ▶ "Built in" safety features.

SIMPLICITY SHELVING SYSTEM

SIMPLICITY in 6 STEPS !

Step 3: Install support to Logika 3000 recessed head channel

Step 2: fit Buffer to upright supports

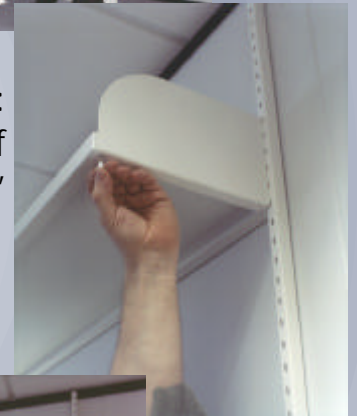

Step 1: Place shelves near assembly point

Step 4: Clip on Bookends and Shelves

LOGIKA

Step 5: Install shelf "Safety"

Step 6: COMPLETE AND READY TO GO !

The unique design of LOGIKA SIMPLICITY SHELVING utilises a purpose designed recessed head and support rail, that readily accepts a range of steel shelves, wipe boards and accessories.

Assembly requires no specialist skill or tools, and may be easily configured to suit your own specific requirements.

SIMPLICITY shelves are formed from 1mm steel and all corners are fully welded for EXTRA STRENGTH. The unique design ELIMINATES fixings, so removal/relocation leaves
